THE WEATHER is certainly moderat-

An IMMENSE quantity of ice is being secured for future use.

A LITTLE flurry of snow has added another half inch to the very poor sleighing; not enough snow yet to cover the cobble rocks in the streets.

In answer to a question frequently asked of late, I will say no, I have not resigned the agency of THE HERALD, and I hope to continue loyal to my first love.

DIS DUSENBERRY seems to endorse to Governor's ideas of issuing bonds for the ben fit of the Insane Asylum and other benevolent institutions of the Territory.

THE GOVERNOR'S message has been The Governon's message has been the absorbing topic of conversation since yesterday morning. A large majority of the people here endorse The Herald's comments on the message and they regard the latter as intended for outside effect, and more as the Governor's message to Congress than to the Legislature of Utah.

The assence of our Proyo members of the Legislature is observable, and the vacuous space leit in the social atmosphere remains unoccupied. We are obliged to live along as best we can without Thurman's advice in political matters, and although the others are not missed so much, yet we miss the ideas of one on the subject of collecting taxes, and the opinions of the other on the proper management of newspapers in general.

The Liberal's heartily endorse the Governor's strictures on Mormonism, though some cannot understand why the Legislature is urged to pass such laws as will do away with the Utah Commission. Take it all together the Liberals regard the Governor's message as a winning card, and to win is what they are hopeing for. It is not the triumph of any principle that concerns them, they merely want to read the fiesh-pots. A grand right-and-left, double flip flop or stand-on-your-head—its all the same, provided they can win and get into office.

its all the same, provided they can win and get into office.

The new Brigham Young Academy building stands with the walls covered about six feet above the rock foundation, just as the workmen left it two years ago. Considering the great good that has been accomplished by this institution during its existence, it does seem that greater interest should be manifested in the completion of the building. It is not too much to say that the Brigham Young Academy has done more than any other institution in this city towards the broadening of the mental faculties of the young people, and leading the to the enjoyments that can only be realized in the science of letters and philosophy. No one who has observed the conditions of life in Provo for the last fifteen years, can have failed to notice the steady progress that has been made towards the ideal good; leading the mind to realize there is something far beyond the horizon which bounds the vision of the men of business who devote their energies te the details of money getting. The young people have entered a land of mental refreshments, where they find relief from care in the companionship of the great minds of all ages. Extending from the Academy, an indefinable influence has permeated all classes of society. At the present time the Academy occupies rooms in the Z. C. M. I. warehouse, near the railroad depot, and although prospering in one sense, is lagging in the march of progress on account of unsuitable surroundings, which makes the life of both teachers and students disagreeable, and to that extent retards the usefulness and progressive advancement of all concerned. Any successful plan that could be devised for the compleand to that extent retards the useful-ness and progressive advancement of all concerned. Any successful plan that could be devised for the comple-tion of the new B. Y. Academy building, would really be a greater benefit to Provo, and to the Territory generally, than all the insane asylums, county jails or other public buildings put to-cether. gether. What Am I To Dor

What Am I To Do?

The symptoms of Billousness are unhappily but too well known. They differ in different individuals to some extent. A Billous man is reidom a breakfast eater. Too frequently, also, he has an excellent appetite for liquids out none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and turred, it is rough, at all events.

The digestive system is wholly out of order and Diarrhea or Consilpation may be a symptom or the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try Gren's August Flower, it, ro's but a tride and thous and attest its efficacy.

Salt Rheum The agonies of those who suffer from severe

alt rheum are indescribable. The cleansing, healing, purifying influences of Hood's Sarsa parilla are unequalled by any other medicine. "I take pleasure in recommending Hood's Sarsaparilla, for it has done wonders for me. I had salt rheum very severely, affecting me over nearly my entire body. Only those who have suffered from this disease in its worst form can imagine the extent of my affliction. I tried many medicines, but failed to receive benefit until I took Hood's Sarsaparlia. Then the disease began to subside, the
